(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	score	

This note head is used to indicate multiphonics. The number below indicates the multiphonic which will be used throughout the piece, ordered by appearance. The absence of a number directs you to play the multiphonic that previously appeared. Each multiphonic, from a compositional point of view, has been considered as a sound object, itself. The priority, from the point of the view of the instrumental technique, is to let the object sound as a block, a rectangle, which starts and which finishes in an articulated and brusque way. The high harmonics that sound while the multiphonic is played occupy a secondary place, the priority should be focused on the density of sound produced and the mechanical character of the sound image which is sought.

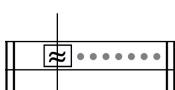

The waves drawn between the upper and central lines of the staff correspond to the voice which should be projected into the saxophone while the performer plays a multiphonic. The voice should, therefore, follow the curvature of the lines, keeping in mind that the upper line of the staff corresponds to the high tessitura of the voice and the central to the low, respectfully. If the angle is very open, the oscillation between the tessituras will be slow. If the angle is closed, the oscillation will, then, be fast. All of the details concerning the voice are merely a proposition towards a sonic exploration conducted by the interpreters, of which is already explained above.

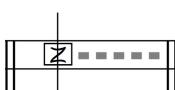

The written fingerings under the staff correspond to a change in fingerings without the production of sound. However, sound will be realized by the speakers, placed on the bell of the saxophone, which is then diffused by the electroacoustic sound.

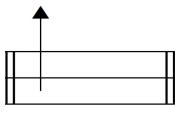

The absence of a fingering indicates that you should use the previous fingering that appeared.

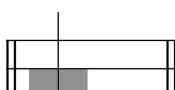

The lines with a rectangle and two superimposed curves on top of it indicates an aeolian sound or air pitch effect where no harmonics are produced. The only sound that should be perceptible is the air itself. This sound should last for the duration indicated by the subsequent gray dots.

The lines with a rectangle and a Z on top of it indicates a frullato with aeolian sound -like the example- or with a reed armonic. This sound should last for the duration indicated by the subsequent gray lines.

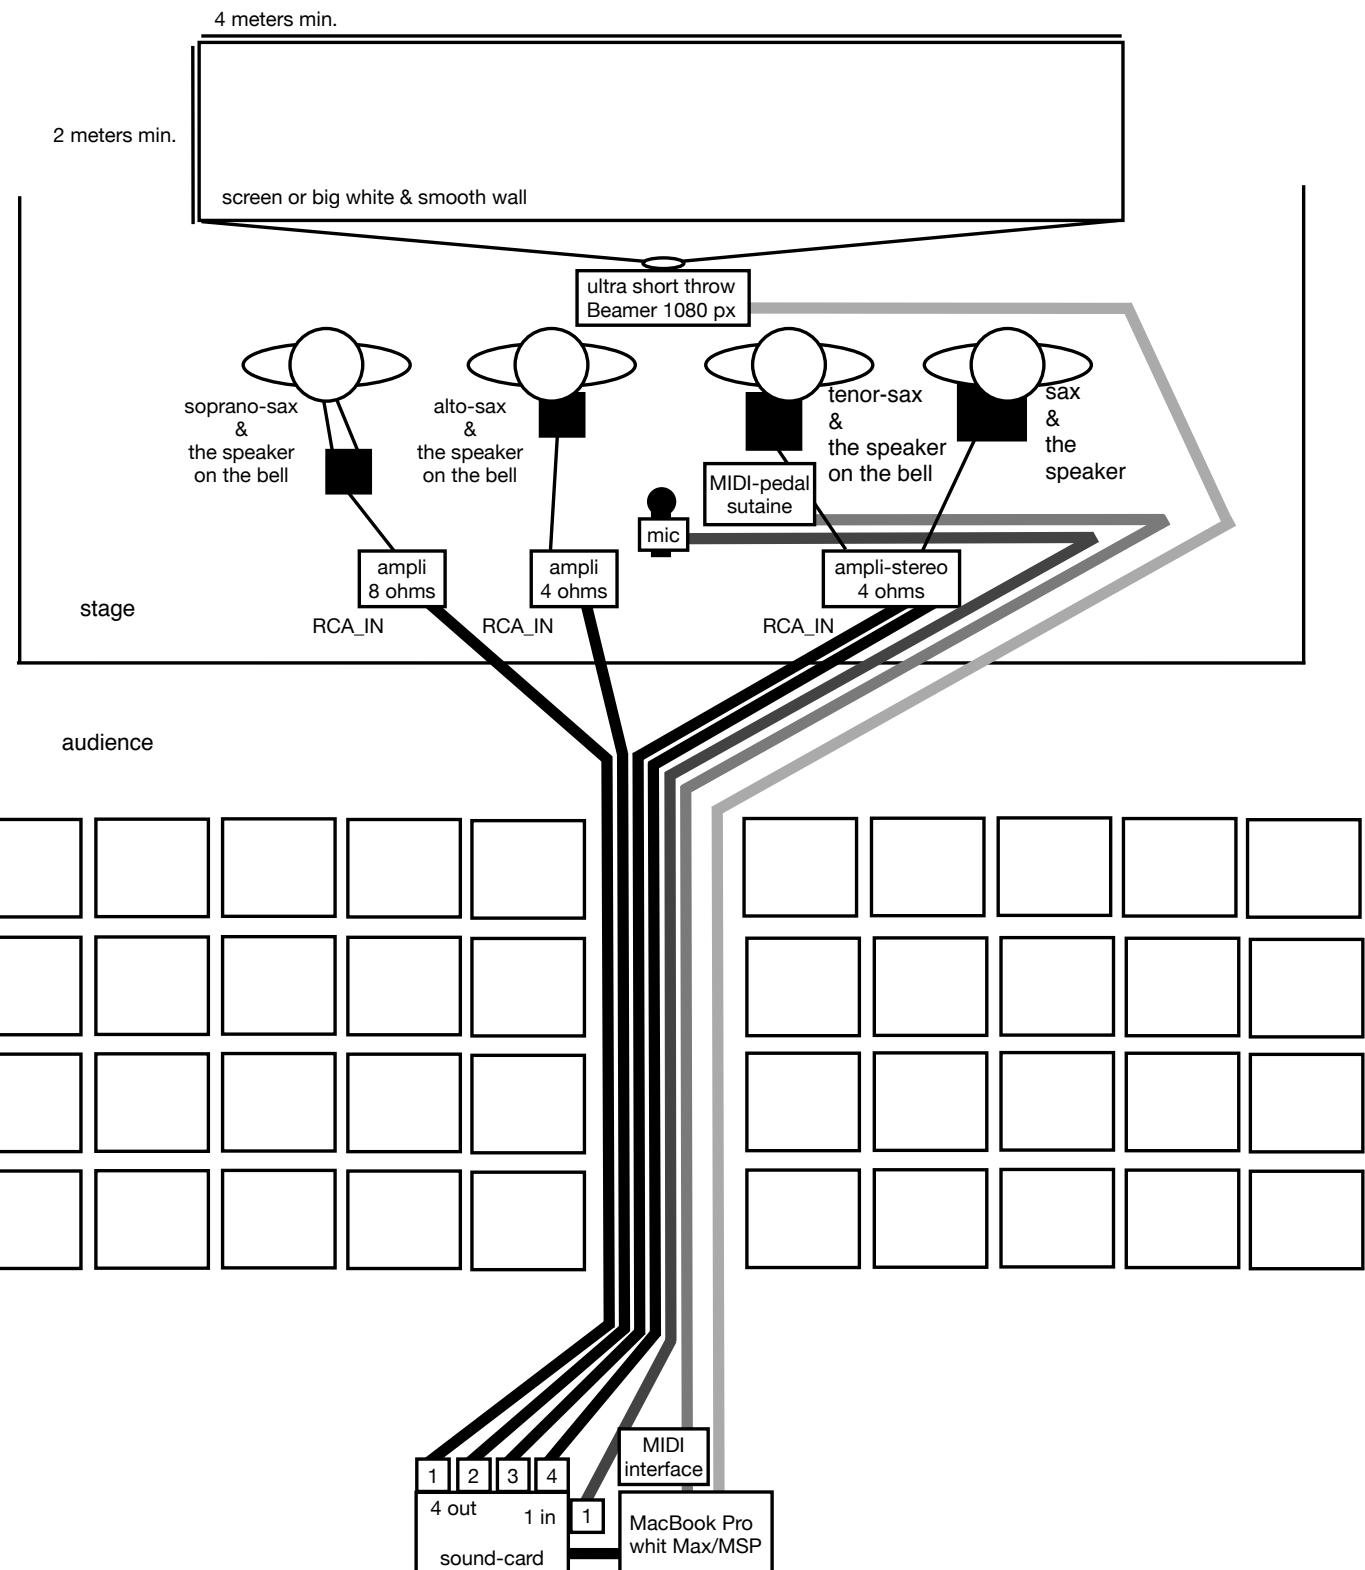

The lines with a rectangle and two superimposed curves on top of it indicates an aeolian sound or air pitch effect where no harmonics are produced. The only sound that should be perceptible is the air itself. This sound should last for the duration indicated by the subsequent gray dots.

This gray rectangle indicates that a pedal change is necessary. As a precaution, the pedal may change parameters associated with the electroacoustic sound or the video.

## ABOUT ELECTRONICS & VIDEO

i could send you my selfmade speakers & their amplis

all information about the patch and others you can contact me: [isandroojedagarcia@gmail.com](mailto:isandroojedagarcia@gmail.com)

This figure displays a page from a musical score with five staves. The staves are labeled as follows:

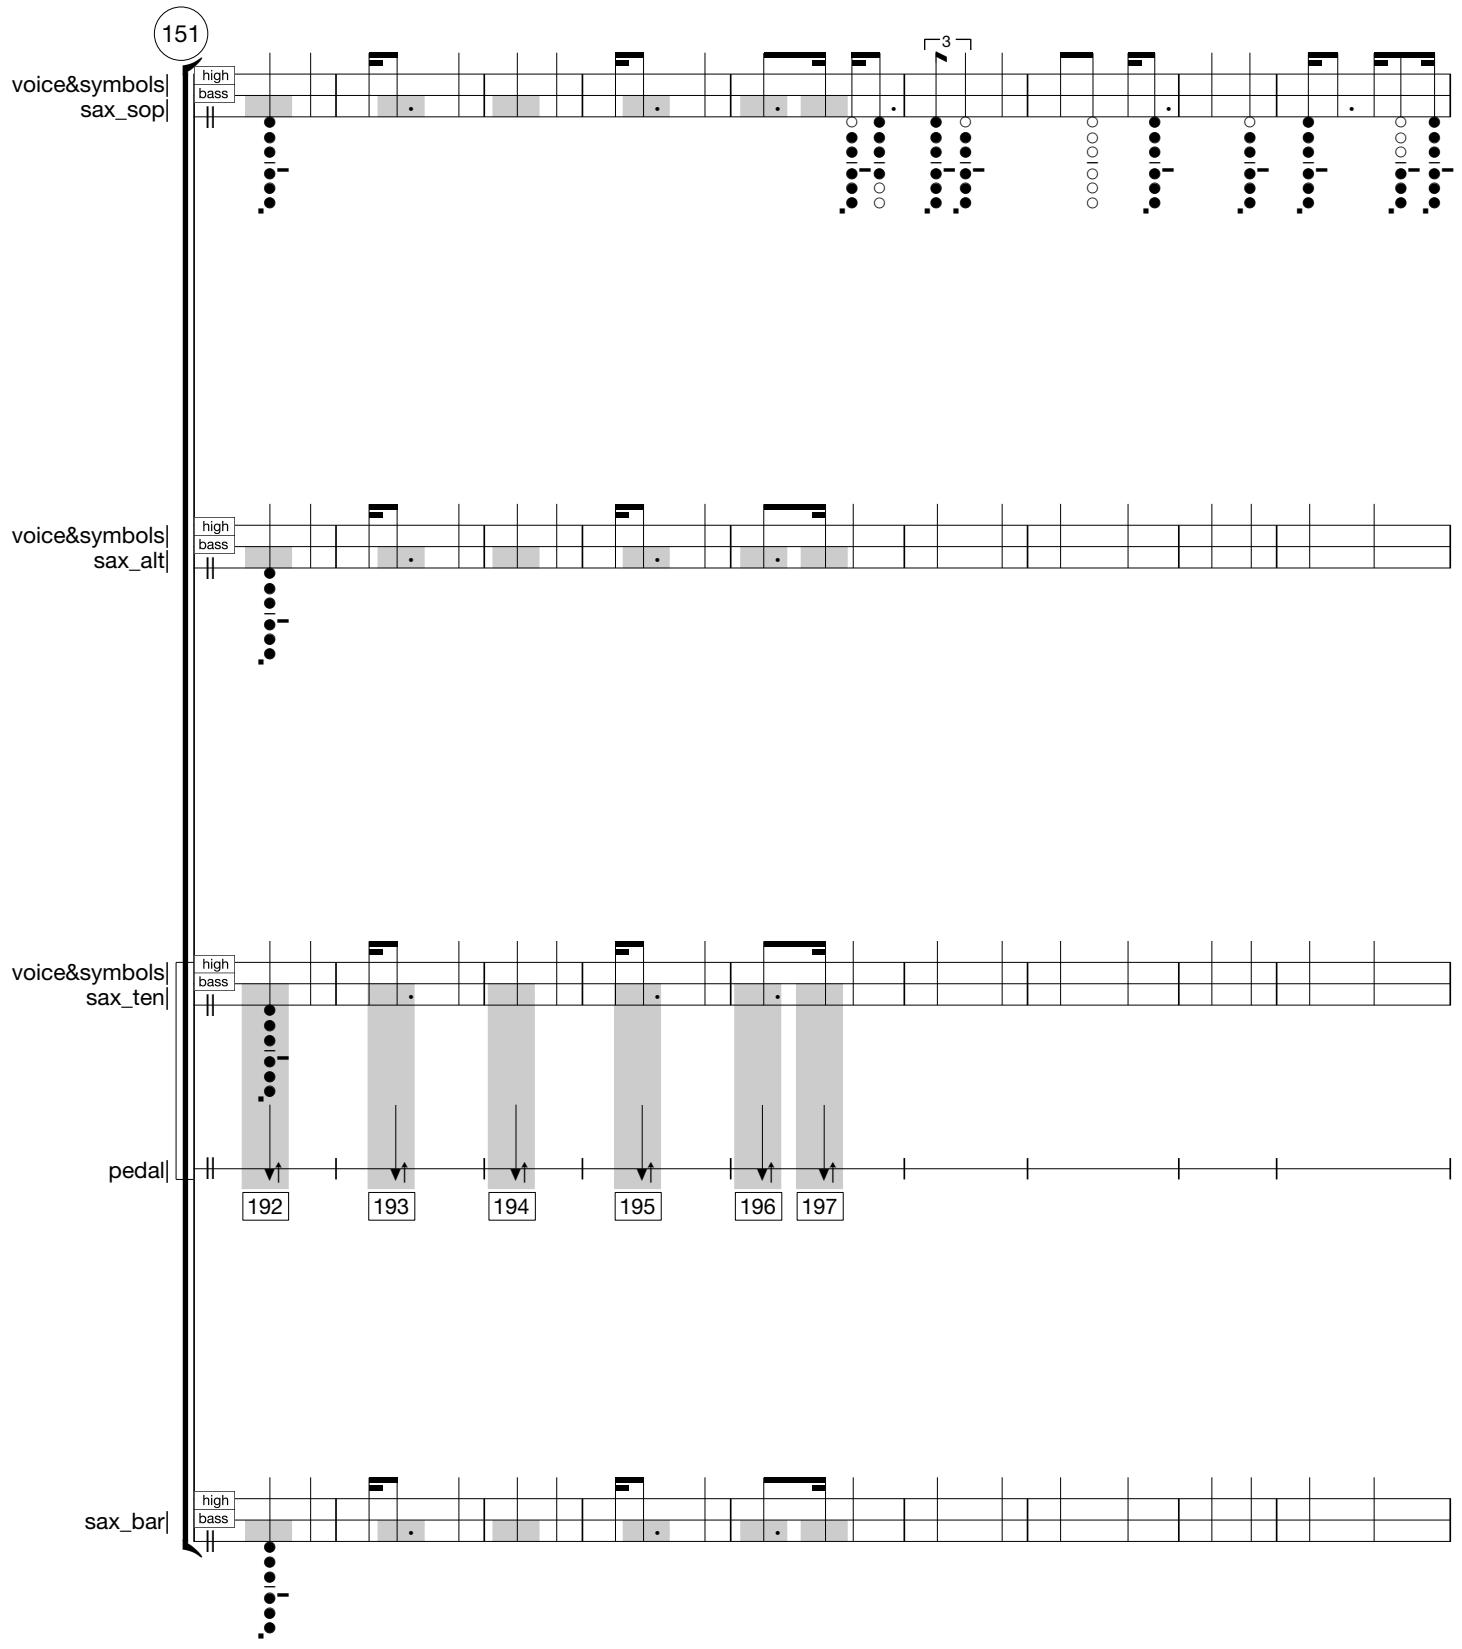

- voice&symbols sax\_sop**: The first staff, starting at tempo 126.
- voice&symbols sax\_alt**: The second staff.
- voice&symbols sax\_ten**: The third staff.
- pedal**: The fourth staff, featuring numerical measure numbers: 167, 168, 169, 170, 171, and 172.
- sax\_bar**: The fifth staff.

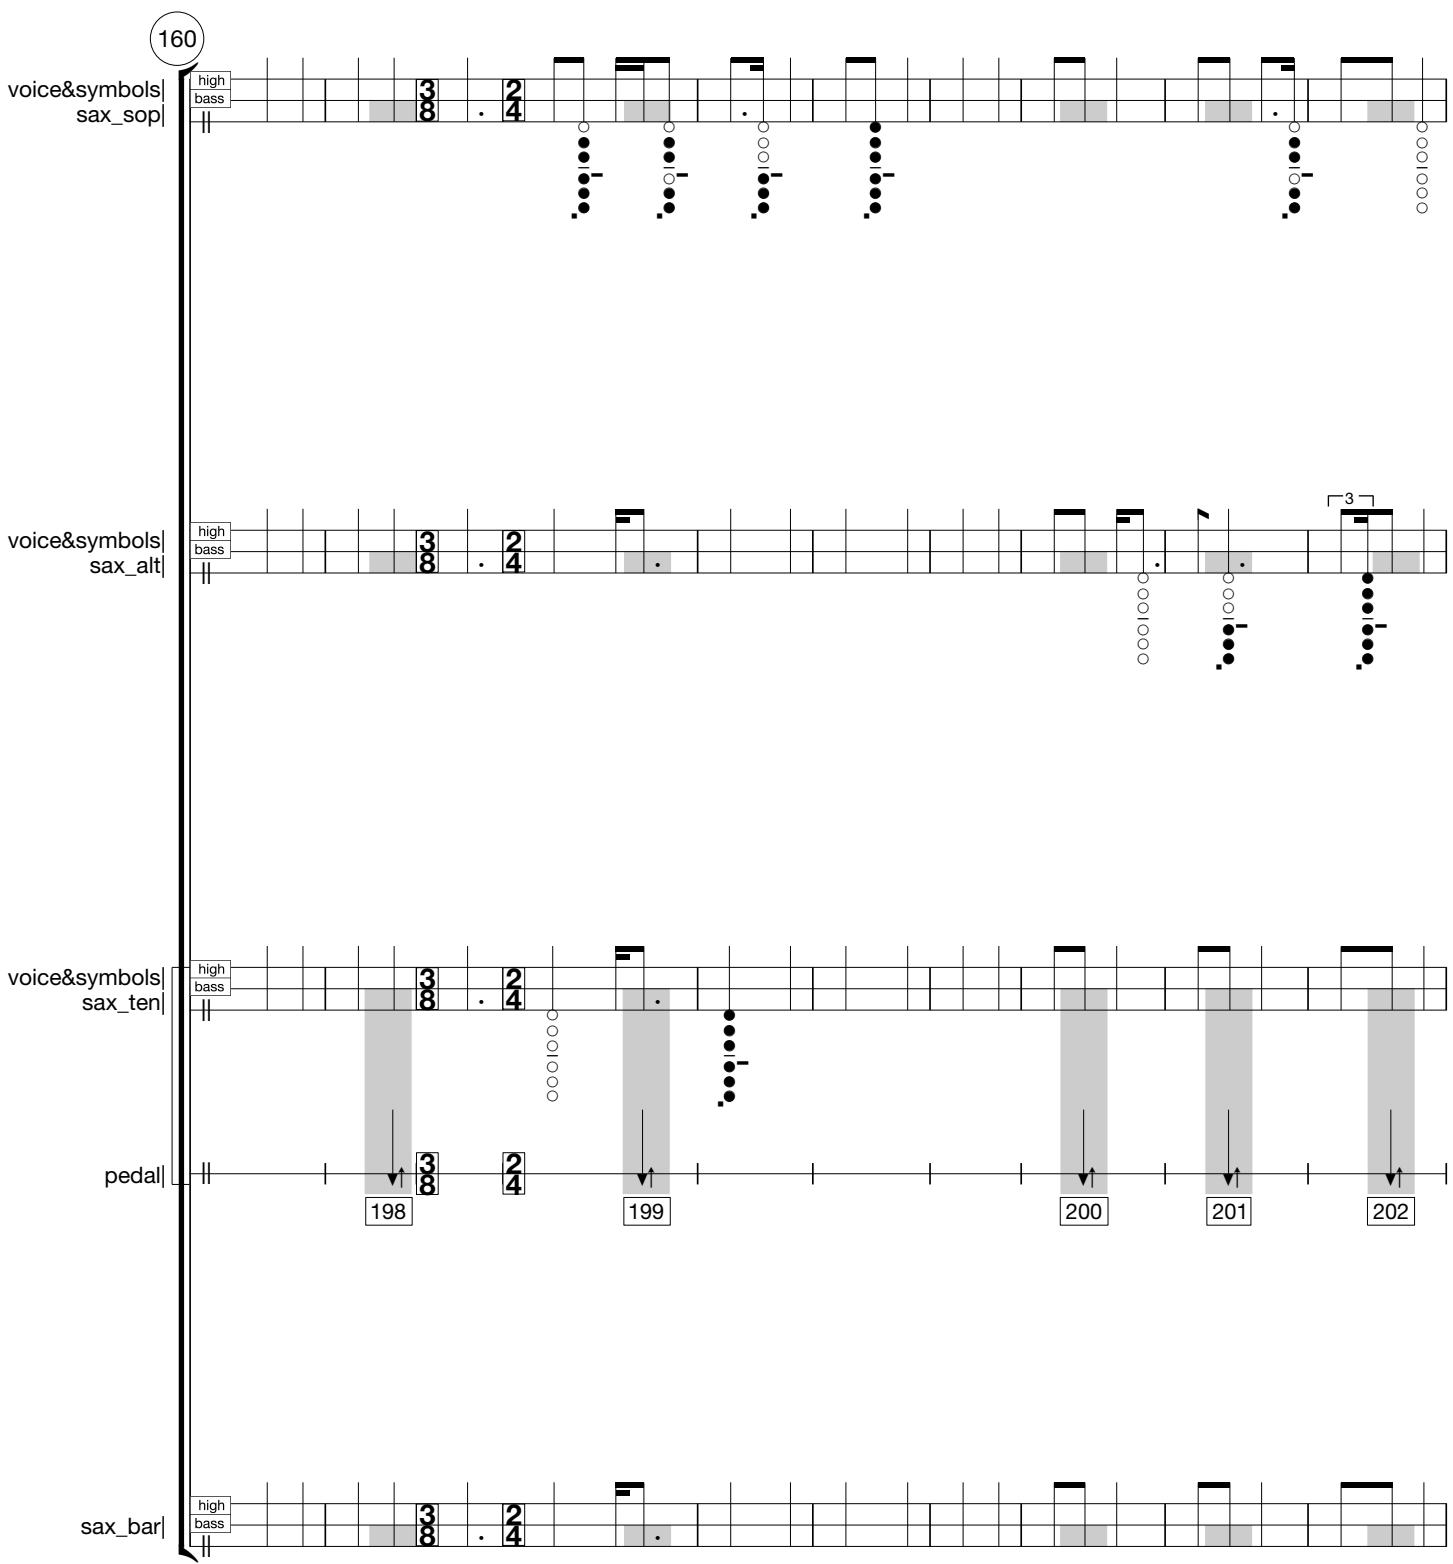

Each staff includes a small icon above it depicting the instrument or vocal part. The music consists of rhythmic patterns with various note heads (diamonds, squares, circles) and rests, separated by vertical bar lines. Measure numbers are placed below the staff in some cases.

A musical score page showing five staves. The top three staves are for 'voice&symbols' with 'sax\_sop', 'sax\_alt', and 'sax\_ten' parts. The fourth staff is for 'pedal'. The bottom staff is for 'sax\_bar'. The score includes measures 234 through 248. Measure 234 starts with a dynamic *pp*. Measures 240-245 show vertical gray bars with arrows pointing down. Measures 246-247 show vertical gray bars with arrows pointing up. Measure 248 ends with a dynamic *pp*. Measure numbers 240, 241, 242, 243, 244, 245, 246, 247, and 248 are printed below the corresponding vertical bars.
